400G QSFP-DD AOC (Active Optical Cable)

Champion ONE's 400G QSFP-DD AOCs provide an affordable low-power alternative to interconnect 400G QSFP-DD ports in data center applications up to 15m. In particular, these AOCs are ideal for simplifying inter- and intra-rack configurations. The cables come complete with durable polymer pull tabs for ease of removal.

*Champion ONE **Passport** transceivers are programmed for universal compatibility across multiple OEM platforms. This open methodology reduces costs and unlocks operational simplicity by reducing sparing costs.*
